THREAT MADE TO BLOW UP LAKE CRAFT

Squads of Police Called to Quell Disturbance on Ss. Isle Royale

DRUNKEN MEN TRY TO FLOOD BOILERS

CHICAGO, Sept. 12 (AP).—Federal deputies and three squads of police today quelled a disturbance aboard the Isle Royale, a lake steamer tied up at its pier here, when several men allegedly threatened to blow up the craft.

FISTS AND OARS

Fists flew and oars were snatched from lifeboats and used as weapons in the brief melee, Deputy Marshal H. E. Goodwin reported.

DISTURBERS VANISH

Several of the disturbers disappeared as police and deputies arrived, and it was indicated no arrests would be made.

NON-PARTIZANS STATE POSITION

Independents Have No Dealings With Premier, Government or Organization

SELECTION OF LEADER

The Independent's statement today, however, declared that, "after the election, if the non-party members form a majority in the House, they will meet and recommend a man whom they are prepared to support as Premier. Under no circumstances will this man be a member of the present Government."

SAYS RUMOR FALSE

"The suggestion fostered by enemies of the non-partisan idea that this movement has a secret understanding with the Government and its organizer, N. S. Loughheed, is false, and is being spread by those who desire to maintain machine politics in this province. At no time have we had nor do we propose to have, any dealings with the Government, the Premier, Mr. Loughheed, or any representative of any political party."

EARL OF KERRY KILLED BY TRAIN

Grandson of Former Governor—General Meets Death on London Underground Railway

LONDON, Sept. 12 (CP).

The Earl of Kerry, nineteen-year-old grandson of Canada's Governor-General from 1883 to 1888, was killed tonight when he fell under a train at the Regent's Park Underground station. He was heir to the sixth Marquess of Lansdowne, son of Canada's fifth Governor-General.

ALTER DATE FOR HEARING APPEAL

VANCOUVER, Sept. 12 (CP).—After setting October 12 for hearing the Province's appeal for a writ of habeas corpus, Judge McInnes, at the request of A. C. DeBary, who has been retained by the Attorney-General, has changed the date to October 6.

Missing Balloonists Safe in Northern Ontario

NEARLY exhausted by their experiences, two pairs of balloonists who took part in the Gordon Bennett races from Chicago were found safe in Canada. The Polish team was found in Northern Quebec on Saturday, a week after leaving Chicago, and the two Americans who handled the Goodyear IX were found Monday in Northern Ontario. In the layout (1) is a general view of the balloons shortly before the take-off, with the Goodyear IX in the foreground. In (2) Ward T. van Orman, pilot of the Goodyear, and his associate, Frank A. Trotter, are shown just before the ascent.

Army and Navy Officers Still Held in Hotel While Cuban Cabinet Sworn In

LABOR PARTY DECIDES TO CONTINUE SUPPORT OF DE VALERA
DUBLIN, Sept. 12 (AP).—The Free State's Labor Party tonight definitely decided to continue its support of President Eamon de Valera and the Fianna Fail Government in the Dail Eireann. A general election, which had been expected in many political quarters in view of the recent merger of opposition parties into the United Ireland Party, consequently was thought unlikely.

Coveted Trophy Won by Langley At Annual Fair

District Display Cup Goes to Mainland—Victoria, Close Second, Receives Handsome Purse—Main Building Is Mass of Color With Many Floral and Fruit Exhibits

LANGLEY won the coveted J. W. Tolmie Challenge Cup and the \$350 purse for the best district exhibit in the Main Building at Victoria's annual Fall Fair at the Willows exhibition grounds yesterday. Only a few points separated Langley from Victoria, which came second, winning the \$250 purse.

HON. J. W. JONES KEEPS COUNSEL

Will Testify to His Political Affections in Own Time and Manner

Unsubstantiated reports that Hon. J. W. Jones would quit the Unionist Government were set at rest yesterday by the Minister of Finance in person, on his return from a ten-day tour of South Okanagan and Interior points. "I have authorized what I will do," Mr. Jones declared.

Dictatorial Triumvirate Is Predicted

VIENNA, Sept. 12 (AP).—A report that an Austrian Cabinet shake-up was impending, which would result in the establishment of a dictatorial triumvirate, appeared in a Vienna newspaper today, at the close of ceremonies during which the leaders of the Austrian Fascists demanded Socialists be thrown out of the city Government.

URGES CUT IN DOLLAR VALUE

WASHINGTON, Sept. 12 (AP).—An immediate "rational" inflation to bring higher prices to cotton and other United States farmers, with through issuance of new money or lowering the gold content of the dollar, was urged upon President Roosevelt today by Senator Harrison, Mississippi Democrat, chairman of the Senate finance committee.

CRISIS ENDS WITH CABINET PASSED

MADRID, Sept. 12 (AP).—A Government crisis of nearly four days' duration was terminated today with the official approval by President Niceto Alcala Zamora, of a Republican Cabinet chosen by the new Premier, Alejandro Lerroux.

Mother and Son Die by Headman

TORONTO, Sept. 12 (CP).—Christine Lea, forty-six, and her son, Walter, twenty-one, were executed by hanging today for the slaying of the woman's husband. This execution brings the total beheadings in Prussia since February 1 to thirty-nine.

DRUNKEN MEN TRY TO FLOOD BOILERS

CHICAGO, Sept. 12 (AP).—Federal deputies and three squads of police today quelled a disturbance aboard the Isle Royale, a lake steamer tied up at its pier here, when several men allegedly threatened to blow up the craft.

DRY LAW REPEAL IN SIGHT AS THREE MORE STATES VOTE WET

Maryland, Colorado and Minnesota Favor Ending of Volstead Act Enforcement by Decisive Majorities—Urban Centres 5-to 1 for Passage of New Amendment to Constitution

Passage of Measure in Seven More States Will End Drive

MARYLAND and Colorado rushed quickly into the mounting United States prohibition repeal yesterday as early majorities in Minnesota gave promise of lifting the anti-prohibition line-up of twenty-nine states. Thirty-six states can tear up the dry law.

While Maryland, Colorado and Minnesota were voting, Maine was completing the count of ballots that Monday placed that original dry state in the wet column. With thirty-two precincts missing, the Maine vote was 122,626 for repeal and 51,817 against.

Lifeboat to Rescue of Jim Thomas

SHOREHAM-ON-SEA, England, Sept. 12 (AP).—J. H. Thomas, Secretary for the Dominion, spending his vacation here, was rescued today from a small boat in which he was making a trip with three other men.

WILL HOP OFF FROM TORONTO

Amey Mollison Chooses Spot From Which to Start Long Flight

MONTREAL, Sept. 12 (CP).—Toronto and not Montreal is now likely to be the scene of the start of James and Amey Mollison, world-famous British fliers, on their next trans-Atlantic flight. R. D. Brimble, secretary of the Montreal Light Aerplane Club, tonight stated the engine of Mr. Thomas' motor launch had broken down.

SHOWS NEED FOR CAUTION

Astronomer Warns That Unknown Circumstances May Upset Calculations

LEICESTER, England, Sept. 12 (AP).—The need for caution in accepting astronomical evidence, was mentioned today by Sir Arthur Eddington, eminent British astronomer, in discussing the expanding universe before the British Association for the Advancement of Science.

AGE OF UNIVERSE

Sir Arthur estimated the age of the universe at 2,000,000,000 years, and declared the earth was at least as old as that in pointing out: "We seem to be coming to the theory the earth is older than the universe itself."

ARTHUR EVANS FOUND GUILTY

Mine Workers' Organizer Is Convicted at Vernon Under Section 98

VERNON, Sept. 12 (CP).—Charged under Section 98 of the Criminal Code with having advocated the use of force to obtain government, industrial and economic changes in Canada, while acting as organizer of the Mine Workers' Union at Princeton last fall, Arthur H. Evans was late tonight found guilty by a jury in Assize Court here.

New B.C. Minister Says Construction Is Need of Moment

Hon. William Savage Pledges Support to Creation of Work, Rather Than Continuation of Relief—Promised Freedom of Action

CONSTRUCTION of public works under Federal, Provincial and Municipal direction, to create wages, as one alternative to the payment of direct relief, was advocated yesterday in a brief inaugural statement issued by Hon. William Savage, new Minister of Public Works.

CRISIS ENDS WITH CABINET PASSED

MADRID, Sept. 12 (AP).—A Government crisis of nearly four days' duration was terminated today with the official approval by President Niceto Alcala Zamora, of a Republican Cabinet chosen by the new Premier, Alejandro Lerroux.

Mother and Son Die by Headman

TORONTO, Sept. 12 (CP).—Christine Lea, forty-six, and her son, Walter, twenty-one, were executed by hanging today for the slaying of the woman's husband. This execution brings the total beheadings in Prussia since February 1 to thirty-nine.

DRUNKEN MEN TRY TO FLOOD BOILERS

CHICAGO, Sept. 12 (AP).—Federal deputies and three squads of police today quelled a disturbance aboard the Isle Royale, a lake steamer tied up at its pier here, when several men allegedly threatened to blow up the craft.

CITY'S BUSINESS

Collections, which affect the entire world of business, are always considered by merchants as an excellent index of conditions. In Victoria during the past few months there has been a very noticeable improvement in business collections, according to local stores and business houses. The difference is not a spectacular one, but an increase in the number and frequency of payments has been definitely established, and this, in their opinion, is a sure sign that there is more money available and a better feeling among the people generally.

Industrial Building Houses Interesting Commercial Exhibits

Manufacturers and Merchants Stage Attractive Displays of Products—Hundreds of Visitors Inspect Various Stalls

THE new Industrial Building at the Willows Fair Grounds, gay with banners and crowded by an ever-moving throng, presents some of the finest exhibits ever seen at the Provincial Exhibition in Victoria. The first booth on the left as the visitor enters the main door is that of the Home Furniture Co. Here three completely furnished rooms have been laid out, featuring the latest in fashion and quality.

A bedroom contains a five-piece suite, a dressing room, a bathroom, a bath, a toilet, a vanity, and a bench. The walls are of a cream stipple, forming a pleasing contrast to the dark mauve Wilton carpet and the cream cretonne drapes.

In addition to the suite are a chair and a chaise-longue. A living room is represented by a three-piece tapestry chesterfield suite and several odd pieces of walnut furniture, occasional chairs, etc. In one corner stands a handsome dark mahogany bookcase and combination secretaire, while the floor is covered by a domestic Oriental rug. Gold and green damask drapes add much to the effect. The walls are bronze. In the dining-room is a nine-piece solid mahogany dining-room suite, the floor being carpeted by a super-fine English Wilton rug. Several small Oriental throw rugs are also shown.

DE-MOTHING PROCESS
The Premier Vacuum is demonstrated in the next booth, featuring the little "Spic-Span" cleaner with the de-moing attachment specially made for chesterfields and upholstered furniture. "The Grand" is the large size Premier, of the latest type, featuring every advance known and with a polisher attachment supplied with every machine.

The Holsum Packing Co., Ltd. have made a fine showing with their up-ton of the famous Holsum products, including jellies, jams, marmalades, etc. These are locally made, grown in the district and put up at the factory at Lake Hill. Close to here stands the booth of the Art Reproductions Co., showing splendid examples of commercial drawing and design.

In the display of the Daniel Boy Co. is proof of the way in which British Columbia spruce, oak and cedar may be used in different articles. A fine rowboat, made by Boyd Bros., is shown, using these materials, as is another, designed for use by hunters and fishermen. Cedar shingles, panelling and clear boards are also shown.

SATIN GLO FEATURED
The British America Paint Co., Ltd. have excelled themselves with an exhibit that is a work of art from the artistic standpoint, while stressing the qualities of Satin Glo enamel, Bapco-lite, outside varnish and other products.

Dentistry That Eliminates Pain
Modern methods and accurate knowledge have swept away pain and discomfort from the dentist's chair.

Trestle Collapses Causing Wreck

THIS air view is the first photograph made of the wreckage of the Golden State Limited, crack transcontinental flyer, near Tucuman, N.M., in which eight persons were killed and nearly fifty others were injured. The locomotive and five coaches of the speeding train crashed through a trestle, weakened by floods, and plunged into a creek bed.

products of Canada. This exhibit is exceptionally well arranged with a map of Canada illuminated by Neon lights and the names of merchants and firms sponsoring the display prominently placed in the centre panel.

The Kiwanis Club have a booth devoted to promotion of the Christmas seal campaign, proceeds of which aid the prevention and cure of tuberculosis. A member of the Victorian Order of Nurses is on hand to give full particulars and also will take the visitor's weight, comparing it with that which their physique demands. Next to this the Brackman-Ker Milling Company has an exhibit of the different cereals and flours they produce, making a fine showing of bags and cartons, each bearing a name that is familiar in every household in British Columbia.

The Victoria Bed & Mattress Company, Ltd. have a varied showing of covered, filled comforters, wool-filled comforters, novelty cushions, quilts and bed spreads. These quilts are made in the local factory, using the modern quilting machine. In the mattress department are featured the new "tuffies" mattresses, spring-filled and upholstered. These are cut to show the interior.

FRIGIDAIRE DISPLAYED
McLennan, McFeely & Prior, Ltd. have an exhibit which is crowded with products of interest to every household. A large portion of the booth is given over to the new frigidaire, for which they are newly appointed distributors. Beauty, efficiency and greater storage capacity are features in these striking models. The Westinghouse Pull Harmonic range is demonstrated in different types, many of which are hooked up ready to prove the deep resonant tone and fine selectivity. The new car radio is also exhibited. Good Cheer ranges of all styles are arranged together with striking heaters under the same name. The A.B.C. electric washer is also shown, while throughout the exhibit are placed standard shafts to bedrock and using large monitors to wash the mountainsides for the precious metal.

NEW B.C. MINISTER SAYS CONSTRUCTION IS NEED OF MOMENT
Continued from Page 1
action for the members of the Legislative Council, the removal of the last vestige of caucus control. I have been promised this freedom," Mr. Savage continued. "It is a sense of the distress suffered by the people of employment, having watched and assisted in relief of the same in an active law practice since the depression commenced."

DIRECT IN SPEECH
Smartly dressed in grey tweed, the Liberal member of the Unionist Cabinet, made the rounds at the Legislative Building, yesterday, and met his colleagues in the Executive and departmental officials. Slight in build, with an erect carriage and an alert bearing, Mr. Savage is a man in the full prime of his life, with a pleasing personality, and a direct and concise manner of speech. He is no stranger to Victoria, having appeared here in Admiralty and other law cases.

HON. J. W. JONES KEEPS COUNSEL

folio, amounting to approximately \$7,500,000 in economies in two years, and his colleagues in the Executive and departmental officials. Slight in build, with an erect carriage and an alert bearing, Mr. Savage is a man in the full prime of his life, with a pleasing personality, and a direct and concise manner of speech. He is no stranger to Victoria, having appeared here in Admiralty and other law cases.

SHOW NEW FASHIONS
Mallick's Ltd. occupy the centre space with an "island" exhibit, and here are shown the latest fur fashions, stressing the new Fall fashions. The display takes the form of a raised dais, on which the furs are arranged while living models show off special models to the best advantage. The whole is illuminated by a spotlight which is very effective. An exceptionally large selection of fur coats are on display, featuring the new platinum, natural and mink shade Hudson seal, trimmed with mink, kolinsky, silver fox and Persian lamb.

Another new style is Logwood Hudson with a scarf tie and a new collar. Broadtails are trimmed with Siberian squirrel in brown and grey and fox. Another popular model is the Civet cat, while for evening wear are the white squirrel and bunny coats in short jackets, fingertip length and full length. The swaggar lapin comes in muskrat, with a silk tie. Across the aisle Royal Ice cream is served, next to the booth of the Alert Shingling Co. Here are shown the different methods of shingling and various styles adopted.

In the exhibit sponsored by the Krens Beauty Shoppe the Safeway permanent wave is demonstrated, together with facial treatments. Throughout British Columbia-made equipment is used. Lucille creams are offered for sale. The entire motif of the booth is green and black, creating an effect well suited to the subject of the exhibit.

IRONING DEMONSTRATION
In the corner booth occupied by the Beatty Washer Store the new permanent wave is demonstrated, together with facial treatments. Throughout British Columbia-made equipment is used. Lucille creams are offered for sale. The entire motif of the booth is green and black, creating an effect well suited to the subject of the exhibit.

HOLD-UP CASE IS ADJOURNED

Dan Mar Recounts Details of Robbery—Prosecution Makes Surprise Move

Testifying for the Crown, Dan Mar, who pleaded guilty to the charge of robbery with violence, in the provincial police court, yesterday, recounted before Judge P. S. Lampman, in the County Court here, the details of how Shun Jack and Harry Wong, Chinese employees at Hatley Park, were held up on August 6.

Wing Poy and Fong Sing, whom Dan Mar alleges were partners in the crime, elected for speedy trial and pleaded not guilty. When the court adjourned yesterday afternoon, Dan Mar was still on the stand.

His evidence had reached the point where he testified that the three charged with the offence were getting the equipment with which to carry out the hold-up preparatory to leaving the scene.

Dan Mar gave similar evidence when the two accused were given a preliminary hearing in the provincial police court. Prior to the preliminary hearing, Dan Mar had pleaded guilty to the charge, and sentence was reserved.

SURPRISE COURT
Claude L. Harrison, who is conducting the prosecution, surprised the court during the afternoon when, following the evidence given by Wing Poy, he asked the indulgence of the court to allow him to cross-examine Wing Poy.

At the preliminary hearing, Dan Mar had testified that he and the two accused had gone to a restaurant and there divided the spoils.

Wing Poy, who is a waiter in the restaurant to which Dan Mar alleged the three had come, had testified that he had seen Dan Mar come into the restaurant about 1:30 a.m. on August 6 with two Chinese, whom he could not identify. Under cross-examination by Frank Higgins, K.C., counsel for the accused, Wing Poy said he did not know who the two Chinese were who accompanied Dan Mar.

DRAMATIC MOMENT
Pointing to Wing Poy and Fong Sing, Mr. Higgins ordered them to stand up.

"Are those the two?" he asked Wing Poy.

"No," came the answer, directly and definitely.

It was at this point that the evidence had been given that Mr. Harrison asked for the right to cross-examine the witness.

Decision was reserved until today so as to give Judge Lampman an opportunity to review the evidence, and for Mr. Higgins also to study the matter. Mr. Higgins having objected to the cross-examination of Wing Poy.

Among the many witnesses called by the Crown to lay the foundation of the case for the prosecution, were Dan Mar's two brothers, Jack and George. They both testified that Wing Poy had said to them in effect that if they said anything more to the lawyers, he would get them all.

THRILLS AWAIT MIDWAY GUESTS
Exciting Attractions Offered at Fair by Browning Amusement Co.

Thrills and games of skill; band and hot-dog stands; the bally-hoo of operators as they attract the visitors to the games of chance and the general hub-bub that goes to make a fair midway exciting is present once more at the Willows Exposition grounds.

The Browning Amusement Company has brought its equipment from Salem, Oregon, where the annual fair has just finished.

William Browning is in charge of the concession himself, and has arranged many thrilling rides, including a dipper, the ferris wheel, roller-coaster, airplane rides; glider and the whips.

The art of the bally-hoo, not the least of these being the Law family, which stages some hair-raising performances with rifles and ropes.

Boxing and wrestling shows will be given, while the public is invited to try its skill at shooting at the long-range shooting gallery.

MAKING DEFENCE LESS VULNERABLE
Twin Cities Police Mobilising More Armaments to Use in War With Criminals

ST. PAUL, Sept. 12 (AP).—Armed by recent bold sorties of killers and bandits in Minnesota, Twin Cities police and state authorities are tightening their lines of defence to halt the outbreak which has resulted in a number of deaths and thousands of dollars in loot.

Agents of the state department of criminal apprehension have been stationed at strategic centres in the state, which permit them to reach more quickly scenes of crimes. Police of St. Paul and Minneapolis are patrolling streets ready to answer calls, with machine guns prominently displayed and trigger fingers ready.

Kidnaping, bank robberies and payroll and diamond stick-ups have been much too regular occurrences in the past months. Several of these have been cut down by the gunmen' terror in cold blood, without chance for defence.

Rob Bank and Kidnap Employee
PARRELL, Pa., Sept. 12 (CP).—Ten men, armed with sawed-off shotguns and revolvers, robbed the S. J. Gully Bank of between \$5,000 and \$7,000 today, kidnaped Carl Wild, twenty-one, employee, and fled across the state line to Ohio in two cars. At Youngstown they released Wild, unharmed.

Tell How Obstacles Overcome

"The way the young people are turning to Christ moves me and humbles me; it is something that I have been longing to see all my ministerial life," declared Dean Quinlan, in summing up after an Oxford Group meeting at the Memorial Hall, last night.

The Dean stated that the meeting, during which a number of young people spoke, had been inspiring to him and that the manner in which the younger generation had surrendered themselves to Christ and the Oxford Group principles was a challenge to the older men and women.

Ten young men and women spoke from the platform during the meeting, telling how they had overcome the obstacles that had cropped up in their ways and how their surrender to Christ and the four absolutes had solved their problems for them.

The speakers were George White, Herbert Warren, Owen Lang, Susan Jones, Jack Hartree, Margaret Freeman, Grace Carter, John Garret, Louise Patterson and Phyllis Macintosh.

Stanley Whitehead acted as chairman.

C. T. CUDMORE IS NAMED PRESIDENT

Local Cattle Will Make Strong Bid For Fair Honors

Many Herds From Prairie and Ontario Points Are Here to Compete With Prize Stock From Island—Saanich Youth Seeking Fresh Fields to Conquer After Mainland Success

"THE cattle this year is of extremely high quality, and considerably better than usual," George Sangster, well-known livestock expert and one of the veteran members of the British Columbia Agricultural Association, stated yesterday after inspecting the livestock division of the annual Provincial Exhibition at the Willows.

Mr. Sangster has been associated with the British Columbia Agricultural Association since 1880, and always has been identified with the livestock division.

A. W. Aylard, H. E. Burbridge, Captain C. R. Wilson and Ian Wilson are among the local entries who will make a bid for some of the outstanding honors in competition against some strong cattle entries from Prairie points.

FINE BREEDER
Mr. Aylard, who is president of the Saanich Jersey Cattle Club, has included in his herd at the show this year Cora Dairies Dairy Star, daughter of the gold medal bull Cora Dairies Oxford King. This cow is noted throughout the province as an exceptionally good breeder, and has left some excellent production stock. Her record is 522 pounds of butter fat during the past twelve months. At the Vancouver exhibition she won third prize for aged cows in a strong field.

H. E. Burbridge's pride at the fair this year is Bababombe Standard Sociable, which won first prize for three-year-olds at the Vancouver fair, and which was never beaten when in the two-year-old class. This animal also won second prize in the senior get-of-sire competition in Vancouver. The sire was Golden Star. Mr. Burbridge has five head of cattle in the show, while Mr. Aylard has entered twelve.

Among Mr. Aylard's bull entries Madamotelle's Oxford holds a good record. Oxford Sultan of Oxford

was his sire, while Madamotelle Deschamps II was his dam. The dam was one of the late J. S. H. Matson's prize importations. Cora Dairies Dairy Star also was an importation from the Island of Jersey.

MAINLAND SUCCESS
Fresh from some outstanding successes at the Vancouver exhibition, Ian Wilson, who is now a junior partner in his father's farm, is entered in the boys' and girls' livestock division.

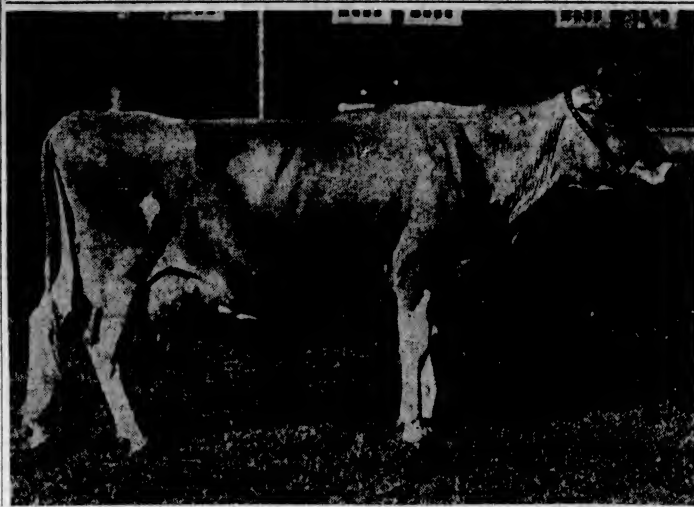

His calf club calf, Oxford Sybil's Pride, took first honors in Vancouver, and second in the open class of fifteen exhibitors. His young bull, Bowling's Xenia's Oxford, took second in the strong yearling class and succeeded in capturing the reserve junior championship.

Wilson is an enthusiastic supporter of the boys' and girls' club, and says it is a splendid field for experience. His son was given a junior partnership in Heatherbell Farm because of the experience he had gained through these clubs, which are well represented this year at the fair.

Representing Saanich in the calf club competitions are Miss Muriel Raper, Miss Isabelle Anderson, Douglas Lawson and Ian Wilson, all of whom have some very fine stock.

From Prairie points and as far East as Ontario some fine herds have been sent to the show, including the C.P.R. Supply Farm, the Madamotelle's Oxford holds a good record. Oxford Sultan of Oxford

Fine Local Production Jersey

—Photograph by Savannah.

ABOVE is Coronation's Dairy Star, owned by A. W. Aylard, of Sidney, which is being exhibited at this year's fair at the Willows. This entry has a fine record throughout the province as a good breeder of production cows. She produced 336 pounds of fat in 305 days at the age of two years, and 522 pounds of fat in 365 days at four years of age. She was sired by Coronation's Oxford King, gold medalist, which in turn was sired by Xenia's Oxford King, gold medalist, of Coronation. Her dam was La Sente's Dairy Lass, which was sired by Imported Rowser out of Stephanotis.

Prize Awards at Provincial Fair

The following is a list of the prizes awarded by the judges at the annual Provincial Exhibition at the Willows, and given out by officials of the British Columbia Agricultural Association:

Classes Formed for Draughtsmen
Evening classes in surveying, draughting, map compiling and lettering are just being formed by Joseph B. Davenport, of the Island Blue Print & Map Co., Sayward Building.

Other branches of draughting and lettering, as well as business, are being taught by the variety of business passing through the office. Mr. Davenport is conversant with many lines.

Anyone interested should phone him for an appointment to talk the matter over.

Tragic End in Air Race

POLICE and first-aid men are shown surrounding the wreckage of the plane in which Mrs. Florence King-Smith, right, of Minneapolis, crashed to death while traveling 200 miles an hour in the Phillips Trophy race, feature of the international air meet at Chicago. She was the only woman entrant in the event, which was won by James R. Wedell, left, of Patterson, La., who set a new record of over 305 miles an hour for land planes.

ROBERT S. CAVIN CALLED TO REST
Pioneer Resident of Glenora District, Duncan, Dies at 81
Age—Funeral Today

Robert Samuel Cavin, aged seventy-nine years, pioneer resident of Glenora District, Duncan, passed away there, Monday. He was born in New Brunswick, and had lived in the district since 1900. His wife predeceased him eight years ago.

He is survived by three daughters: Mrs. P. Dougan, of Cobble Hill; Mrs. A. P. Albany and Mrs. George Lister, both of Victoria. Three sons, Robert McVay, John Walker and Samuel T.; one half-sister, residing in New Brunswick; twenty grandchildren and two great-grandchildren.

The funeral will take place today at 3:15 p.m., at his former home in the Glenora district, and the remains will be laid to rest in the Mountain View Cemetery, Soanemo. Flowers left at Sands Mortuary, Ltd., will be cared for.

Town of Trail Now Grows Flowers on Former Sand Wastes
No longer is the industrial town of Trail without flowers, and where travelers of a few years ago saw only sand wastes, there are now beautiful rock gardens, according to John

There is a movement on foot at Canberra, Australia, for the establishment of an organized form of local church co-operation, embracing the Presbyterian, Methodist and Congregational denominations. The scheme would provide for both ministers and people retaining their own status in their respective church communions. Canberra is the newly-created capital of the Federal Government.

Young, who for twenty years has been ice-maker at the Trail rink. Purses from the Consolidated Mining & Smelting Company's plant are no longer permitted to pollute the air, but are allowed to escape into the earth by special machinery, which now enables residents of the town to grow flowers.

Mr. Young has been recently required and is enjoying a short visit in Victoria. He is staying at the Douglas Hotel.

Why Should Any Woman Read This Advertisement?
BECAUSE . . . It Tells Her How She Can Relieve and Prevent Periodic Pain by Taking Lydia E. Pinkham's Tablets

These tablets are a scientifically prepared, clinically tested uterine sedative. In plain English that means a modern medicine, made from the purest and most effective ingredients, which will bring welcome relief to women who suffer from monthly ailments. These tablets do not simply dull the pain for a little while. Any opiate will do that. They reach the cause of the pain and so prevent its return.

Why do you endure needless agony? Begin taking Lydia E. Pinkham's Tablets a week before

hand and notice the difference. In stubborn cases you may need to take the tablets regularly for several months, but if yours is not a surgical case, you should suffer less and less. PERSISTENT USE BRINGS PERMANENT RELIEF.

These tablets contain no harmful drugs. They will not cause dizziness or any ill effects whatsoever. They are chocolate coated, pleasant to take, convenient to carry. For sale at all drug stores. Small box 55¢.

LYDIA E. PINKHAM'S TABLETS

SOLDIER'S DUTY IS THEME OF SERMON

Rev. W. H. Cassap Delivers Sterling Address at Veterans' Memorial Service

The late Earl Grey, who was Foreign Secretary for Great Britain at the time war was declared, only in the utmost to avert the conflict, according to Rev. W. H. Cassap in his address, Sunday night, at the annual memorial service of the Army and Navy Veterans, at St. Alban's Church.

He was a man, said Mr. Cassap, who would be missed, not only in parliamentary circles, but in the church assembly, where his advice was greatly valued. He was most certainly one of those who had departed this life in God's faith and fear.

It was the speaker's contention that a good soldier lived to do his duty, and he, as well as everyone else, had a duty no less important towards God, and that was to worship Him. As his text described "Endure hardness as a good soldier of Jesus Christ."

The service was well attended by members of the Army and Navy Veterans. Captain C. F. L. Money read the lessons, while Captain Douglas was at the organ.

U.S. Navy Officers Found Negligent By Seattle Court

SEATTLE, Sept. 12 (AP)—Negligence was found on the part of navigators of the light cruiser Detroit, as well as those on the fishing vessel Joseph George, in a decision in Federal Court, growing out of the sinking of the fishing boat off Cape Rosier, Vancouver Island, two years ago.

The decision was handed down by Judge Jeremiah Neterer.

Damages for the loss of the boat were fixed at \$2,700, and the personal loss to Magnus Haug, owner, as \$540, and to Herman Lee, a seaman, as \$520. With the equal blame, the damage payments were ordered to be divided.

BOYS' ATHLETIC CLASSES BEGIN

Y.M.C.A. Officials Pleased With Attendance as Fall Schedule Opens

With uncontrollable enthusiasm, sixty boys, of the 500 registered members, took complete control of the Y.M.C.A. gymnasium from 4:15 p.m. to 9:15 p.m. Monday, in the opening of the fall athletic programme of the organization.

Boys in the junior school group, under leadership of Archie McKinnon, physical director, were first to hold exercises. Junior employees class took the floor at 7:15 p.m. with the intermediate employed, under direction of Vivian Shoemaker, boys' work secretary, finishing the night.

Full preliminary exercises consisted of loosening up the muscles, which have been allowed to rest during the holidays. Indoor running, light basketball practice and swimming constituted the workout.

Y.M.C.A. officials were pleased with the initial turnout, and look forward to an exceptionally fine year. This year's first night attendance is in excess of that of last season.

Many new faces are expected to be seen in the leader corps, according to Mr. McKinnon. For the purpose of completing the corps, a meeting of the older boys has been called for Saturday at 10 a.m.

Storm Brings Devastation To Trinidad

PORT OF SPAIN, Trinidad, Sept. 12 (CP).—Word reached here today, of a devastating tornado that swept through the Morne Blue forest on the north coast of the island of Trinidad, yesterday, leaving in its wake flooded roads, ruined crops and numerous landslides. No deaths, however, were reported.

The storm cut a path 100 feet wide through the forests. Cultivated crops were counted a total loss.

BIG THRILLS PROVIDED AT HORSE SHOW

Fine Display of Horseman-ship Seen at Exhibition Last Night

DECISION OF JUDGE WAITS CONFIRMATION

The annual four-night horse show in connection with the Provincial Exhibition at the Willows was inaugurated last evening with an interesting programme of equestrian events that produced the usual number of spectacular incidents, as well as bringing to light some splendid horsemanship and several beautifully-schooled animals. The show worthy of much larger attendance, but the committee confidently anticipate good crowds this evening from the big crowds that will be present on Thursday.

The show opened with the entry of the four-horse teams, led by the immaculately turned out Thorburn Transfer company. The ladies immediately followed by the Crystal Dairy's (Vancouver) quartette of Clydesdales that ultimately received the first prize. The speaker was William Geary, of Vancouver. These two companies are the only competitors in the draft-horse class at the show this year, and their rivalry for first place in the various events in which they are participating will be watched with lively interest.

By rearrangement, the ladies' hunters class originally scheduled to take place tonight, was substituted for the mare or gelding class scheduled to take place last evening, and introduced an unexpected interest. It was one of the best events of the evening, bringing out sixteen competitors. Mrs. D. B. Carley was eventually awarded the first prize with her bay gelding, Beggar Boy; Mrs. D. Gillespie's handsome chestnut, Ambercrest, taking second, and Mrs. T. K. Matthews, second prize, with her bay gelding, Beggar Boy.

The touch-and-go sweepstakes for \$120, much interest centred, but no award was made pending the decision of the committee as to whether the judge's ruling disqualifying horses touching the bars is to be sustained, as all but two of the competitors touched. J. Graham Graham judged the saddle horses, jumpers and ponies.

The results were as follows: Class 31, best four-horse draft team, shown to appropriate vehicle—J. Crystal Dairy, Vancouver (Transfer Co., Vancouver (Clydesdales); 2, R. Thorburn (Transfer Co., Vancouver (Clydesdales).

Class 69, novice saddle horse—1, Billy Wisp, black gelding, Miss M. Robertson; 2, Hobart Jon, grey mare, W. L. Stewart Macleod.

Class 80, advanced from tonight's programme for ladies' hunter class, ridden by Mrs. D. B. Carley; 2, Queen of Spades, black mare, Russell's Riding Academy (Clydesdales); 3, Kittiwake II, bay mare, Miss B. Jackson.

Class 80 (advanced from tonight's programme) for ladies' hunter class, ridden by Mrs. D. B. Carley; 2, Queen of Spades, black mare, Russell's Riding Academy (Clydesdales); 3, Kittiwake II, bay mare, Miss B. Jackson.

Class 81, hunting pairs—1, Tara, black gelding, Mrs. D. B. Carley; 2, Ambercrest, chestnut gelding, Mrs. D. Gillespie (ridden by Mrs. O'Brien); 3, Tarzan, chestnut gelding, Mrs. T. K. Matthews.

Class 81, hunting pairs—1, Tara, black gelding, Mrs. D. B. Carley; 2, Ambercrest, chestnut gelding, Mrs. D. Gillespie (ridden by Mrs. O'Brien); 3, Tarzan, chestnut gelding, Mrs. T. K. Matthews.

Class 81, hunting pairs—1, Tara, black gelding, Mrs. D. B. Carley; 2, Ambercrest, chestnut gelding, Mrs. D. Gillespie (ridden by Mrs. O'Brien); 3, Tarzan, chestnut gelding, Mrs. T. K. Matthews.

Class 81, hunting pairs—1, Tara, black gelding, Mrs. D. B. Carley; 2, Ambercrest, chestnut gelding, Mrs. D. Gillespie (ridden by Mrs. O'Brien); 3, Tarzan, chestnut gelding, Mrs. T. K. Matthews.

Class 81, hunting pairs—1, Tara, black gelding, Mrs. D. B. Carley; 2, Ambercrest, chestnut gelding, Mrs. D. Gillespie (ridden by Mrs. O'Brien); 3, Tarzan, chestnut gelding, Mrs. T. K. Matthews.

Class 81, hunting pairs—1, Tara, black gelding, Mrs. D. B. Carley; 2, Ambercrest, chestnut gelding, Mrs. D. Gillespie (ridden by Mrs. O'Brien); 3, Tarzan, chestnut gelding, Mrs. T. K. Matthews.

Class 81, hunting pairs—1, Tara, black gelding, Mrs. D. B. Carley; 2, Ambercrest, chestnut gelding, Mrs. D. Gillespie (ridden by Mrs. O'Brien); 3, Tarzan, chestnut gelding, Mrs. T. K. Matthews.

Class 81, hunting pairs—1, Tara, black gelding, Mrs. D. B. Carley; 2, Ambercrest, chestnut gelding, Mrs. D. Gillespie (ridden by Mrs. O'Brien); 3, Tarzan, chestnut gelding, Mrs. T. K. Matthews.

Class 81, hunting pairs—1, Tara, black gelding, Mrs. D. B. Carley; 2, Ambercrest, chestnut gelding, Mrs. D. Gillespie (ridden by Mrs. O'Brien); 3, Tarzan, chestnut gelding, Mrs. T. K. Matthews.

Class 81, hunting pairs—1, Tara, black gelding, Mrs. D. B. Carley; 2, Ambercrest, chestnut gelding, Mrs. D. Gillespie (ridden by Mrs. O'Brien); 3, Tarzan, chestnut gelding, Mrs. T. K. Matthews.

Class 81, hunting pairs—1, Tara, black gelding, Mrs. D. B. Carley; 2, Ambercrest, chestnut gelding, Mrs. D. Gillespie (ridden by Mrs. O'Brien); 3, Tarzan, chestnut gelding, Mrs. T. K. Matthews.

Class 81, hunting pairs—1, Tara, black gelding, Mrs. D. B. Carley; 2, Ambercrest, chestnut gelding, Mrs. D. Gillespie (ridden by Mrs. O'Brien); 3, Tarzan, chestnut gelding, Mrs. T. K. Matthews.

Class 81, hunting pairs—1, Tara, black gelding, Mrs. D. B. Carley; 2, Ambercrest, chestnut gelding, Mrs. D. Gillespie (ridden by Mrs. O'Brien); 3, Tarzan, chestnut gelding, Mrs. T. K. Matthews.

Class 81, hunting pairs—1, Tara, black gelding, Mrs. D. B. Carley; 2, Ambercrest, chestnut gelding, Mrs. D. Gillespie (ridden by Mrs. O'Brien); 3, Tarzan, chestnut gelding, Mrs. T. K. Matthews.

Class 81, hunting pairs—1, Tara, black gelding, Mrs. D. B. Carley; 2, Ambercrest, chestnut gelding, Mrs. D. Gillespie (ridden by Mrs. O'Brien); 3, Tarzan, chestnut gelding, Mrs. T. K. Matthews.

Class 81, hunting pairs—1, Tara, black gelding, Mrs. D. B. Carley; 2, Ambercrest, chestnut gelding, Mrs. D. Gillespie (ridden by Mrs. O'Brien); 3, Tarzan, chestnut gelding, Mrs. T. K. Matthews.

Nearly 18,000 Persons Attend City Exhibition

ATTENDANCE at the Willows fair yesterday was only 876 less than the record set last year, which was the highest attendance figure attained on a Tuesday in the history of the British Columbia Agricultural Association.

Paid admissions yesterday amounted to 3,494, as compared with 4,390 for Tuesday of last year. Including children, exhibitors and holders of membership cards, it is estimated that 17,470 persons attended the fair yesterday, compared with 21,950 last year.

In the afternoon 1,152 persons paid admission, while in the evening 2,342 paid, compared with 1,655 and 2,735 last year, respectively.

Mr. and Mrs. T. K. Matthews and Mrs. D. Gillespie (latter's horse ridden by Miss O'Brien); 2, Surprise and Nevada, Miss D. Allen and Miss J. A. Rithet; Chenango and Ebony, Mrs. D. B. Carley and Mrs. D. B. Carley (latter's horse ridden by Miss O'Brien).

Class 74, best saddle horse (only Shawanigan Lake and North Vancouver district horses eligible)—1, Kildare, Miss D. Hogan; 2, Toni, Miss M. Jervis Waidy (the first won the F. Norris and Sons' prize); the second, the silver cup donated by W. H. Meares.

Class 88, touch-and-go sweepstakes (for \$120 stake sponsored by David Spencer, Ltd., Mrs. Dugald Gillespie, Mrs. D. B. Carley and S. P. Birley)—No award made pending decision of committee.

Class 88, touch-and-go sweepstakes (for \$120 stake sponsored by David Spencer, Ltd., Mrs. Dugald Gillespie, Mrs. D. B. Carley and S. P. Birley)—No award made pending decision of committee.

MARINE, RAIL and AIR

Thermopylae Club
Exhibit Pictures
And Ships' Models

Initial Display of Ship-Lover Organization Responsible for Large Amount of Interest Among Patrons at Willows Fair

A great many people living in Victoria and vicinity are more or less directly interested in the sea and the ships that traffic in its waters; probably half of Victoria's population is acquainted in some way or other with those who get their bread and butter from the operation of ships; while it is a certainty that the entire population would not be living on this island if it were not for the contact which ships of various kinds provide with the mainland and countries overseas. They brought the people here in the first place, and they still carry pretty much all that is necessary to sustain them.

It is fitting, therefore, that in connection with any fair promoted in Victoria and depending on the present industry and progress, sufficient accommodation should be provided to display the various types of marine architecture on exhibition to the best advantage.

The efforts of the Ship Thermopylae Club, comprised of a number of local ship-lovers, to stimulate an interest in everything that pertains to the sea and its shipping, is deserving of all the assistance that might be given it without working any hardship on, or restricting the purposes of, others.

LIMITED SPACE
Handicapped by the limited space at the disposal of the club, a number of exhibits offered for their display at the Willows Fair, had to be rejected. Cramped as they are for room to effectively show the exhibit, the various models are crowded together in a little alcove off the top floor of the old Manufacturers' Building, they nevertheless command the attention of the greater number of those visiting the art section.

Models representing months and even years of arduous labor on the part of the makers and worth in many instances large sums of money are included in the Thermopylae Club exhibition. They range from the model of the ship *Royal James*, period of 1670, down to H.M.S. Hood and H.M.S. Courageous, modern battle craft.

There are an ornamental model of a Spanish galleon, a Chinese junk, Captain Cook's *Resolution*, a Bermuda-rigged yacht, a sailing schooner, the Grand *Benker Blue*, a nose, steamships and many replicas in wood of the great clipper ships whose names were household words in the great days of sail.

Among the finely-worked model of clipper ships are *Cutty Sark*, *Flying Cloud*, *Sovereign of the Seas* and *Ariel* and *Talping* racing together up the English Channel with their tea cargoes from China to London. There are miniature of

H. F. Alexander Out Last Night—Monowai Sailing for Australia Today

Sailing for California ports, the Pacific Steamship Lines S.S. H. F. Alexander left Rutherford Piers at 10 o'clock last evening with a large list of travelers and a rich cargo. The liner arrived from Seattle at 8 o'clock, and embarked a number of island and mainland passengers going South.

Booked at the local office for the H. F. Alexander were: Mr. and Mrs. R. P. Butchart, Mrs. A. L. Thompson, Sandy Thompson, Dr. and Mrs. M. L. Connor, Miss Mervyn Connor, Miss Diane Connor, Miss E. J. Collins, Mrs. H. E. Wade, Miss Harry Maloney, W. F. McCarthy, Rev. H. R. G. Malley, Mrs. Lawrence Barr, H. H. Bale, Master David H. Bale and Miss Kathryn Barr.

Others joining the ship here were: Mrs. H. Johnson, Ervin Johnson, Francis Johnson, Mrs. and Mr. H. T. Norton, Mrs. G. W. Townner, Miss Margaret Jorgensen, Mrs. E. Wheeler, Miss Betty Shadbill, Miss Noel Cusack, Mrs. H. E. Wade, Miss M. McMillan, Harry J. Barnes, Dr. C. H. Cotty, Winthrop E. Foley, Mr. and Mrs. J. W. McKenzie, Mrs. St. Denis Macfarlane, Miss Cecelia Macfarlane, Miss Margaret McKenzie, Mrs. W. Petersen, Mr. and Mrs. E. G. Lewis and Miss Elizabeth MacKenzie.

WILL LEAVE TODAY
With a passenger list of 150 in all classes and a good cargo, the Canadian-Australasian motorship *Monowai*, Captain D. J. Butler, flying the flag of the United Kingdom, is due here at 4 o'clock this afternoon, from Vancouver. The *Monowai* is scheduled to leave Rutherford Piers for Australia, Japan, and New Zealand at 6 o'clock.

Now on her way across the Pacific, the *Monowai* is a motorship of the Canadian-Australasian Motorship Line, which is a subsidiary of the Canadian Pacific. The *Monowai* is a motorship of the Canadian-Australasian Motorship Line, which is a subsidiary of the Canadian Pacific. The *Monowai* is a motorship of the Canadian-Australasian Motorship Line, which is a subsidiary of the Canadian Pacific.

MIMIC WARFARE
COST IS GREAT

Defence of Tokyo During "Hostilities" Required 3,000,000 Yen

To a multitude of businesses and individuals, Tokyo's two days and nights of mimic warfare recently coincided precisely with General Sherman's definition of real war, according to accounts received in Victoria this week.

In the first place, there was a very definite cash expenditure, and a very definite sum it seems to be, too; and then there was the loss of commerce through the disruption of normal activity, states Trans-Pacific.

About the only class able to view the late two-day affair with equanimity is the clothing trade, which sold the uniforms worn by those civilian defending corps who were called out to maintain order in the city.

THE DIRECT COST
The Asahi and other organs began checking up the direct cost immediately after the cessation of "hostilities." They found that the bill amounted to 2,900,000 yen, with the public contributing 1,800,000 yen of the total, while the army, which had all the "glory," contributed 1,000,000 yen. The sum spent by the navy is not yet available, and may never be, as it will be included in the appropriation for the grand fleet maneuvers.

Contributions collected by the Tokyo Chamber of Commerce and the various headquarters of the joint civilian defending corps amounted to 1,200,000 yen, while small contributions in thirty-five wards of Tokyo totaled 700,000 yen, averaging 20,000 yen from the residents of each ward.

A baby show is to be held to collect money for the hospitals. What you might call a charity bawl.

Freighter Ashore On Liplip Shoals North of Everett

SEATTLE, Sept. 12 (AP).—A "pen" ship, fog that blanketed the Puget Sound region early today, caused the freighter *Admiral Chase*, of the Pacific Steamship Lines, to run aground on a sand bar at Liplip (thirty miles north of Everett), and delayed other vessels and disrupted schedules of all North Pacific steamship lines.

The *Admiral Chase* was stranded at 3:30 o'clock this morning, and was pulled off several hours later, unharmed, and proceeded to Port Angeles on her way to California.

PARTY LEFT FOR CHICAGO

Dr. Clem Davies Invited to Preach in Churches Next Sunday

With the second group to leave Victoria this summer for the Century of Progress Exhibition at Chicago, Dr. Clem Davies, accompanied by a party of twenty-three, left here Monday afternoon aboard the *Princess Margaret* for Seattle, where they boarded the Chicago, Milwaukee, St. Paul & Pacific Railway train, leaving the Puget Sound city that evening.

The party, under Dr. Davies' management, was organized through the efforts of Eric Marshall, local representative of the railway, and will spend several days at the exhibition on their arrival in Chicago. They will return here over the same road two weeks hence.

Included in the party were Mrs. A. Trenholme, Miss Amy Trenholme, Mrs. C. E. Gentlemen, Mrs. L. Ward, Mrs. I. H. Dalziel, Mrs. I. Dodd, Mrs. Charles Lee, Douglas Baker, W. Knight, Dr. R. J. Stewart, Mrs. Amy Graham, Mrs. A. J. Tyson, Mrs. T. W. Greer, Miss Margaret Bain, Miss Isabel Bain, Mrs. C. Pederson, Mrs. L. Warnock, Mrs. M. Watson, Mrs. P. Erickson, Mrs. M. Frick, Mrs. J. H. Templeton, H. Cavanah and J. O. Conklin.

WILL PREACH TWICE
Next Sunday, Dr. Davies will speak twice in Chicago churches. In the morning he will occupy the pulpit of Central Church. The Central Church is non-denominational, like the Victoria City Temple, and the pastor is the famous Dr. Fred F. Shannon, who is the acknowledged successor of the group of great American divines, which includes such preachers as Henry Ward Beecher and Dwight L. Hillis. The organizer is Dr. Prother, whom Victorians will remember as an adjudicator for the Music Festival here.

In the evening Dr. Davies will preach in Chicago Temple, the largest in all America. Rev. Dr. John Thompson is the regular pastor of the Chicago Temple. Illuminated at night, it is one of the landmarks of Chicago. First Methodist Episcopal adherents worship there.

MAYOR TAYLOR TO GET REPLY

Letter From Mayor of Southampton Will Reach Quebec Today

QUEBEC, Sept. 13.—Following his cable to the Mayor of Vancouver last week, Alderman F. Woolley, Mayor of Southampton, England, is continuing the correspondence inaugurated three weeks ago by the Pacific city's chief executive, and when the *Empress of Britain* docks here tomorrow, a letter entrusted to Captain Latta will be speed westward to beat the record created three weeks ago.

A combination of ship, train, motorcycle and airplane will be used

to lower the mail record between Southampton and Vancouver set up by Lieut. Commander Frank Hawk and his Texaco monoplane, and Captain Griffiths, of the *Empress of Australia*, eighteen days ago when the Canadian's letter reached his British confere in 7 days 12 hours 55 minutes.

Just before the *Empress of Britain* sailed for Quebec from Southampton last Thursday, Southampton's mayor personally delivered his letter to Captain Latta. Tomorrow morning soon after 8 o'clock it will travel to Montreal by the steamship special train. At the Windsor station a Canadian Pacific telegraph messenger will take the letter by fast motorcycle to St. Hubert airport and hand it to Captain S. T. B. Cripps, D.F.C., pilot of the south-bound Canadian Colonial Airways plane.

Transferred to a westbound machine at Albany, the letter will reach Vancouver, Saturday morning, where arrangements have been made for its rapid transfer from the airport to Mayor Taylor's office at the City Hall.

Weekly sailings from Montreal and Quebec to England, Ireland, Scotland and France in conjunction with Anchor-Donaldson Line. Ask your local agent.

With the second group to leave Victoria this summer for the Century of Progress Exhibition at Chicago, Dr. Clem Davies, accompanied by a party of twenty-three, left here Monday afternoon aboard the *Princess Margaret* for Seattle, where they boarded the Chicago, Milwaukee, St. Paul & Pacific Railway train, leaving the Puget Sound city that evening.

The party, under Dr. Davies' management, was organized through the efforts of Eric Marshall, local representative of the railway, and will spend several days at the exhibition on their arrival in Chicago. They will return here over the same road two weeks hence.

Included in the party were Mrs. A. Trenholme, Miss Amy Trenholme, Mrs. C. E. Gentlemen, Mrs. L. Ward, Mrs. I. H. Dalziel, Mrs. I. Dodd, Mrs. Charles Lee, Douglas Baker, W. Knight, Dr. R. J. Stewart, Mrs. Amy Graham, Mrs. A. J. Tyson, Mrs. T. W. Greer, Miss Margaret Bain, Miss Isabel Bain, Mrs. C. Pederson, Mrs. L. Warnock, Mrs. M. Watson, Mrs. P. Erickson, Mrs. M. Frick, Mrs. J. H. Templeton, H. Cavanah and J. O. Conklin.

WILL PREACH TWICE
Next Sunday, Dr. Davies will speak twice in Chicago churches. In the morning he will occupy the pulpit of Central Church. The Central Church is non-denominational, like the Victoria City Temple, and the pastor is the famous Dr. Fred F. Shannon, who is the acknowledged successor of the group of great American divines, which includes such preachers as Henry Ward Beecher and Dwight L. Hillis. The organizer is Dr. Prother, whom Victorians will remember as an adjudicator for the Music Festival here.

In the evening Dr. Davies will preach in Chicago Temple, the largest in all America. Rev. Dr. John Thompson is the regular pastor of the Chicago Temple. Illuminated at night, it is one of the landmarks of Chicago. First Methodist Episcopal adherents worship there.

SCHEDULE CHANGES

EFFECTIVE SEPTEMBER 5 on the following routes: Cadboro Bay, Gordon Head, Jordan River and Cowichan Lake.
EFFECTIVE SEPTEMBER 10 on the following routes: Nanaimo-Campbell River, Nanaimo-Port Alberni, Saltspring Island.
EFFECTIVE SEPTEMBER 15 on the following routes: Victoria-Nanaimo, Deep Cove, Sidney, Langford, West Saanich, Shawnigan Lake.

CORDOVA BAY SERVICE

On and after Friday, September 15—Leave Victoria 8 a.m. and 3:00 p.m. Leave Cordova Bay 8:30 a.m. and 3:30 p.m.

When children go to their meals it is essential that they should have clean hands, feet and faces.

Everyone knows that birds are hatched from eggs. There are many kinds of eggs; for instance, frogs eggs

are actual homoeous old-ties found in examination papers, books, etc. by teachers.

The African natives ask the dew in the morning to drink the water is dry

In the olden days people either died of disease of the heart or made fortunes

The mosquito is an insect, but when it bites anyone it swells up and is very painful

When children go to their meals it is essential that they should have clean hands, feet and faces.

Everyone knows that birds are hatched from eggs. There are many kinds of eggs; for instance, frogs eggs

COMEDY-DRAMA IS
NOW AT CAPITOL
Ann Harding and William Powell
Co-Starring in Latest Picture,
"Double Harness"
How a girl forced her wedding
bells to ring and then encounters a
problem to keep them ringing is the
situation Ann Harding copes with in
"Double Harness," coming to the
Capitol Theatre today in which she
co-stars with William Powell.
In a spicy, sparkling RKO-Radio
comedy-drama, Miss Harding deter-
mines to make her marriage an effi-
ciency proposition, and pursue
Powell, who depicts a freedom-lov-
ing bachelor. Through her artifice
and intrigue, the ceremony is effi-
ciently performed.
Miss Harding is surprised when
Powell's pre-marital love changes to
indifference to his bride. For when
he learns that she ensnared him by
cleverness, he leaves her, and she
finds she has acquired a problem
instead of a career. Situations rich
in touching drama and brilliant
comedy continue to a surprise cli-
max which solves Miss Harding's
difficulties.
PLAYHOUSE "The Monkey's Paw,"
the RKO Radio Picture now at the
Playhouse Theatre, was directed by Wes-
ley Ruggles, celebrated for his direc-
tion of RKO's "Cimarron." Are
These Our Children? and other
great screen successes. Also on the
same bill is "Bondage."

When Worlds Collide
By EDWIN BALMER & PHIL WYLLIE
CHAPTER IX
It was now more than a year be-
fore the first serious physical mani-
festations were expected; so the
statement that Hendron signed
merely read:
"It is still impossible to forecast
the entire effect of the approach of
the Bronson bodies. Unquestionably
they will disturb us greatly. We may
anticipate, as a minimum, the fol-
lowing phenomena: tides which will
destroy or render uninhabitable all
coastal cities and all inland cities
within 500 or more feet of sea level.
We have no terrestrial precedent
for such tides. The existing sixty-
foot rise and fall in the Bay of
Fundy will be trifling in com-
parison. The tides we antici-
pate will be perhaps several hundred
feet high, and will sweep overland
with a violence difficult to antici-
pate."
"The second manifestation, which
will be simultaneous, will consist of
violent earthquakes and volcanic ac-
tivity of unpredictable extent and violence."
"The Bronson bodies, if they pass
on a parabolic, will approach the
earth twice. If, however, their course
becomes modified into an ellipse,
the earth will meet them again in
its journey around the sun. Direct
collision with one or another of the
bodies, or grazing collision due to
mutual attraction when in proximi-
ty, cannot be regarded as impos-
sible. The succession of tides and
earthquakes caused by gravity and
resultant stresses may instantly or
in time render the surface of this
globe wholly uninhabitable; but we
cannot say that there is no hope."
"Certain steps must be taken. All
coastal cities in all parts of the
world must be evacuated. Popula-
ce must be moved to high, non-volcanic
regions. Provision for feeding,
clothing and demoralizing migrated
peoples must be made."
"There remains considerable doubt
concerning the origin and nature
of the Bronson bodies. They are
being made to determine their com-
position, but determinations are diffi-
cult, as they are non-luminous."
"The scientists of the world are
in agreement that the course out-
lined above is the only logical one
to pursue. Since the first approach
of the Bronson bodies may be ex-
pected to take place with effect up-
on the tides and seaboard on and
about the end of next summer, gen-
eral migration should begin at once."
On the morning succeeding the
spread of this statement, Tony stood
in the vast populous waiting-room
of the Grand Central Station. Yes-
terday here had been issued man-
ning orders for fifteen hundred mil-
lions of human beings. If they did

DIRECTORS OF CLUB CHOSEN

Victoria Gyros Hold Annual Meeting—Objectives for Year Submitted

Major H. Cuthbert Holmes, R. L. Challoner, F. W. Hawes, W. Stanley Moore and Alex D. Straith were elected directors of the local Gyro Club, at its annual meeting Monday night. Dr. Charles B. Moss, W. Leonard Woodhouse and Harold L. Butters were unanimously chosen president, vice-president and secretary-treasurer respectively by acclamation last week when nominations closed.

Retiring president, R. A. Lipsey, presented the directors' report, which was greeted by much discussion. Several objectives for the club's 1933-34 programme were suggested in the report and the incoming board will investigate their feasibility and report back immediately.

MANY SUGGESTIONS
Suggestions given were: Erection of an outdoor swimming pool in Beacon Hill Park; support of the proposed bicycle track, enlarging and making the men's T.B. ward at Jubilee Hospital brighter; sponsoring and backing the "Use Your Voice" campaign for foodlights for several playing fields in the city; fostering of athletics in the local public schools; establishment of permanent camp for under-privileged boys, and sponsoring scholarships.

The following committee chairmen presented annual reports: A. B. Christopher, civic affairs; Frank Burton, membership; W. C. Hudson, speakers; L. V. Thompson, boys' work; W. S. Moore, entertainment; C. E. Laundy, attendance; and Major H. Cuthbert Holmes, service club council.

A proposal that members of the Gyro Club meet members of the other service clubs in Victoria was endorsed heartily and a service club's delegate was instructed to introduce a resolution calling for a "get together" of respective club members.

DELEGATE'S REPORT
R. L. Challoner, official Victoria representative at the recent convention held in Harrison Hot Springs, presented his report. District No. 4, of which the local club is a member, has had two new clubs formed during the year. A third club, in London, England, was sponsored by this district.

Harold L. Butters presented the financial report, which showed the club to be strong in a monetary way.

DISCUSSION ON SOCIETIES HELD

United Church Social Union Hears Addresses by Two City Pastors on Young People's Work

Rev. Gordon Boothroyd, assistant pastor at First United Church, and Rev. J. Harwood A. Warr, assistant at Metropolitan United Church, gave brief addresses and led a discussion on "The Modern Attitude to Young People's Work" at a meeting of the Social Union of United Church Ministers of Victoria at the home of Rev. Dr. Gerald B. Switzer yesterday.

The idea stressed in the addresses and discussions was that young people's group should formulate their own programme according to their own local needs. Any pamphlets or educational material could be used as references instead of following their lines completely. Approximately forty-five ministers and their wives were present, and Rev. John Robson presided. Rev. C. G. Mackenzie, pastor of Centennial United Church, and Rev. Gordon Boothroyd were welcomed as new members.

WHEN WORLDS COLLIDE

in agreement that the course out-
lined above is the only logical one
to pursue. Since the first approach
of the Bronson bodies may be ex-
pected to take place with effect up-
on the tides and seaboard on and
about the end of next summer, gen-
eral migration should begin at once."
On the morning succeeding the
spread of this statement, Tony stood
in the vast populous waiting-room
of the Grand Central Station. Yes-
terday here had been issued man-
ning orders for fifteen hundred mil-
lions of human beings. If they did

not know that it was to be the end of the world, at least they were told that it was the end of the world as it had been.
He listened to fragments of the conversations in progress in his vicinity.
"I tell you, Henry, it's ally, that's all. If anybody expects me to give up my apartment and pack up my kids and move off 184th Street just because a few grey-headed school teachers happen to think there's a comet coming, then they're crazy."

"It's the end, that's what it is; and I for one am glad to see it. When the sea starts to rise and the earth starts to split open, I'm going to stand there and laugh. I'm going to say: 'Now what's the good of the farm relief? Now who's going to collect my income tax? Now what does it matter whether we have prohibition or not? Good-bye, world! That's what I'm going to say. Good-bye! Good night! I hope it wipes the hell out of damn things as clean as a billiard ball.'"

"Don't hold my hand so tight, Daddy. You hurt me."
"It's ridiculous. They've been fighting about their fool figures for generations. They can't even tell whether it's going to rain or not tomorrow. How in the hell can they say this is going to happen? Give a fellow some ideas, and a lot of trick figures, and he goes haywire, that's all."

"I drew it all out and bought gold. I got two revolvers. I filled the house with canned goods. I said: 'Here you are, Sarah. You've been telling me all your life how well you can run things. Take the money. I'm leaving. If we've only got a couple of months left, I'm going to see to it that I have a little fun, anyway.' That's what I

did. I drew it all out and bought gold. I got two revolvers. I filled the house with canned goods. I said: 'Here you are, Sarah. You've been telling me all your life how well you can run things. Take the money. I'm leaving. If we've only got a couple of months left, I'm going to see to it that I have a little fun, anyway.' That's what I

"WHEN WORLDS COLLIDE"

The succession of tides and earthquakes caused by gravity and resultant stresses may instantly or in time render the surface of this globe wholly uninhabitable.

Settled in a chair, Tony glanced around the comfortable furnished rooms of the student's room and then gazed at the student himself. A lanky youth with red hair, good-natured blue eyes and a sprinkling of freckles that carried into his attained maturity more than a memory of the childhood he had so recently left.

"Yes," Tony repeated, "I'm from Cole Hendron. The dean told me about your academic work. Professor Gates showed me the theses on light which you turned in for your Ph.D. He said it was the finest thing he had had from the Graduate School since he'd held the chair of physics."

Dull red came in the young man's face. "Nothing much. I just happened to have an idea. Probably never get another in my life." Tony smiled. "I understand you were stoked in the varsity crew two years ago. That's the year you were rowing everybody out of the water, isn't it?"

"There weren't any good crews that year. We just happened to have the least bad ones." Tony looked at the youth's hands, nervously clenching and unclenching. They were powerful hands, which nevertheless seemed to possess the capacity for minute adjustments. Tony smiled. "No need of being so modest, old fellow. It's just as I said. Cole Hendron in New York is getting together a bunch of people for some work he wants done during the next few years. It's work of a very private nature. I can't tell you what it is, but I can assure you that he will accept you. I'm touring around in the silent to send him some likely people. You understand that I'm not offering you a job in the sense of jobs have been offered in the past. I don't know that any salary is attached to it at all. You will be supplied with a place to live, and provided with food, if you accept."

The tall youth grinned. "I suppose you know that offering a chance to associate with Cole Hendron is a lot like me. I just like offering the job of secretary to St. Peter, to a bishop."

"M-m-m. By the way, why did you stay here at the university when most of the graduate students have left?"

"No particular reason. I didn't have anything better to do. The university is on high ground. It didn't seem sensible to move for that reason, and I thought I might as well stay here as anywhere."

"I see," Tony replied. "His companion hesitated to say what was obviously on his mind, but finally broke the short silence. 'Look here, Mr.—Mr.—' " "Drake. Tony Drake."

"Mr. Drake. I can't understand why on earth Hendron would want me. If he's planning to take a group of people to some safe spot in order to preserve scientific knowledge during the next year, he can find hundreds of people, thousands of people, that have more knowledge to save, and a better memory to save it in, than I have."

Tony looked at the good-humored blue eyes and the young man. He felt instinctively that here was one person whom Cole Hendron and the committee would surely accept. The name of the man before him he recalled, was Jack Taylor—his record for a man of twenty-five was startling. He grinned at the youth's speculation. "You're a physicist, Taylor. If you were in Cole Hendron's shoes, and were trying to take a group of people to a place of safety, just where, under the circumstances we anticipate, would you take them?"

The other man was thoughtful for an instant. That's just what worried me. I can't think of a place on earth that would offer a refuge essentially satisfactory. "Exactly. No place on earth." Tony emphasized the last two words. Jack Taylor frowned quickly, and suddenly the freckles on his face stood out because his color had departed. "I see," Tony replied. "God Almighty! You don't mean to suggest—"

● Half Price! One of the hardest-wearing Rugs you can buy! Attractive designs and colorings. Sizes

ROSS RETAINS LIGHTWEIGHT CHAMPIONSHIP

Chicago Fighter Given Decision In Close Battle

Champion Gets Split Decision Over Former Titleholder in Grueling Fifteen-Round Bout—40,000 Fans Howl Protest Over Verdict of Officials

By EDWARD J. NEIL
Associated Press Sports Writer.
POLO GROUNDS, NEW YORK, Sept. 12 (AP)—Barney Ross, fighting with the fire of a zealot, saved his lightweight title from returning to desperate little Tony Canzoneri tonight, in a fifteen-round battle that surpassed in savagery anything the lightweight division has seen here since the historic duel of Benny Leonard and Lew Tendler, years and years ago.

For fifteen rounds, with scarcely a moment for a long breath, two of the fastest hitters in their class fought each other to a frazzle in a struggle so close, so shifting in its roaring tide, that in the end only the split decision of Referee Arthur Donovan and the two judges remained the crown for the burning-eyed, aesthetic-faced Jewish boy from Chicago's Ghetto.

Thus Ross saved his title as he won it in Canzoneri in ten rounds in Chicago in June, by the narrowest possible margin, as a crowd of 40,000 thronged about the ring and howled in protest.

PLENTY OF ACTION
Round after round they ripped at each other, first one then the other weakening, then coming back, then fading off again under a punching storm that never gave the huge crowd a quiet moment. But toward the end it was the stamina that oozed from every muscle of the twenty-two-year-old champion that lifted him onto the closing rally that saved the day for him.

Judge Arthur Kelly voted, when it was all over, for Canzoneri by a margin of eight rounds to seven, while Judge Harold Barrie gave the defending champion a decisive edge with nine rounds won, two lost and four even.

It was up to Referee Donovan to decide then, and he cast his vote for Ross, giving him eight rounds, Canzoneri four, with three even.

ISLAND BODY TURNS DOWN LOCAL LOOP

Balks Against Victoria's Motion for Separate Basketball District for Season

NANAIMO, Sept. 12.—L. A. Gordon and W. Erickson, of Victoria, delegates of the basketball league of that city, put up a strong plea for support here at the seventh annual meeting of the Vancouver Island Basketball Association in their application for a separate district.

The parent body, the B.C.A.B.A., for a separate charter for Victoria and district. But their plea was unanimously turned down by the other island delegates, and when the meeting appointed delegates to attend the meeting of the B.C.A.B.A. in their application for a separate district.

Victoria's attitude was explained by Mr. Gordon as believing that as they had some sixty-five teams playing in their district, they were big enough to govern their own affairs. Delegates from other points of the island stressed the financial difficulties encountered by them to keep in existence, and rated Victoria's attitude as a selfish one, and not for the good of organized basketball.

Mr. Gordon gave what practically amounted to an ultimatum when he said that if Victoria's application did not go through at the meeting of the parent body, he was sure Victoria would break away from the island association and play outland basketball. He was sure, however, that the application would be granted, as Mr. Hardwick, secretary of B.C.A.B.A., had told them that it would, following the misunderstanding last year, when a technicality prevented the application being dealt with by the parent body. This confidence was discredited by other members of the meeting, including the president of the British Columbia Association, Norman Brown, who was present as a guest, as they pointed out that even if Mr. Hardwick had promised the safe passage of Victoria's plea, he had done so without authority.

NEW MOVE MADE
It was found that there were some seventy teams playing organized basketball on the island last year, and an amendment to the constitution was put through for the purpose of raising funds whereby in future all teams applying for affiliation to the island Association must pay an initiation fee of \$100. Junior teams will be excepted.

Officers elected were: Honorary president, Norman Porter, Vancouver; honorary vice-presidents, John Hunt, Nanaimo; Dr. G. K. McNaughton, Cumberland; R. J. Burde, Port Alberni; president, Thomas Lewis, Nanaimo (re-elected); secretary, John Sutton, Courtenay; secretary-treasurer, Cecil Mulholland, Nanaimo (re-elected).

Lewis and Mulholland were appointed as delegates to the meeting of the B.C.A.B.A. in Vancouver on Saturday next, and were instructed to oppose Victoria's motion for a separate district on behalf of the island Association.

"Golf balls at sale price." Players can now drive a bargain.

Horseshoe Meet To Start Today At Willows Fair
COMPETITORS in the horseshoe-pitching tournament to take place at the Willows exhibition this afternoon are asked to be on hand at 2 o'clock, when the draw for the singles and doubles will be made. Twenty entries have been received and play will be down to the semi-finals in both events when time is called. Finals will be played tomorrow.

Shores Leading Terminal League Baseball Series

VANCOUVER, Sept. 12 (CP).—Shores Jewellers went ahead again tonight in the play-off for the championship of the Terminal Baseball League. The Jewellers trounced Asahi 10 to 5 at Con Japas Park to take a one-game lead for the title. A win tomorrow night gives the Jewellers the championship and will send them against the Son of Canada, of Victoria, on Friday night, in the British Columbia play-offs.

Shamrocks and Y.M.I. Squads To Hold Dance

The Shamrocks and Y.M.I. softball teams, winners of Progressive and Commercial League honors, respectively, will hold a grand finale at the Rex Hall, Esquimalt, on Friday evening, in the form of a dance and presentation of cups to the captains of the teams. Dancing will start at 9 o'clock and a large crowd is expected to attend. Presenting the trophies.

Table Tennis Meeting

A meeting will be held this evening, at the Y.M.C.A., at 8 o'clock, for those interested in forming a table tennis league in the city. All interested are asked to attend.

ESQUIMALT TO MEET

A special meeting of the Esquimalt Soccer Club will be held tomorrow night, at 8 o'clock, in the clubrooms.

Medalist Advances With Easy Win in Canadian Tourney

Ada Mackenzie Scores 9 and 7 Victory Over Mrs. S. M. Connolly — Margery Kirkham, Mrs. Bearisto and Isabel Pappall Are Victors

PINE RIDGE GOLF COURSE, WINNIPEG, Sept. 12 (CP).—Four outstanding players moved into the second round in the Canadian Women's Open golf tournament here today as the first round was completed. All were of championship calibre and their scores led followers to believe they would be the surviving quartette in the semi-finals.

Margery Kirkham, Montreal, defending champion; Ada Mackenzie, Toronto, Canadian close title; Mrs. R. Bearisto, holder of the Manitoba and Winnipeg city crowns, and Isabel Pappall, Toronto, first ranking junior golfer of Ontario, advanced to the second round by ready wins under indifferent weather conditions at this treacherous course.

After winning the qualifying medal yesterday with a card of 82, Miss Mackenzie played with the confidence of a champion today to score seven par holes of the eleven she toured in defeating Mrs. S. M. Connolly, Winnipeg, 9 and 7. The driving power that won her the prize for the longest drive today sent her off from the trees with a substantial start over her opponent, and but for persistent trouble on the greens her margin on score would have been greater. She lost only one hole, the first.

MISS KIRKHAM WINS
Miss Kirkham scored only five pars in downing Mrs. Newton Wallis, 6 and 5. The defender ran afoul of the treacherous traps on the first nine holes and was obliged to halve five holes before she could gain the mastery over her hard-fighting adversary.

Miss Pappall found little difficulty in disposing of her fellow towns-woman, Mrs. J. W. Simmer, Toronto, 7 and 6.

Mrs. Bearisto won her match with Verna Henning, Winnipeg, on the thirteenth.

Prominent among other visiting golfers who advanced to the second round were Marjory Murphy, Ottawa, who defeated Owen Detchen, Winnipeg, 5 and 3. Mrs. W. G. Moore, Toronto, won from Barbara Northwood, Winnipeg, 2 and 1. Lorna Blackburn, also from Ottawa, vanquished Mrs. J. H. Forster, Winnipeg, on the fourteenth.

First round play eliminated three players from Ontario. Mrs. H. F. Patterson and Mrs. Edwin Crockett, both of Toronto, lost their matches to local golfers as did Helena Spears, Hamilton. They will enter the first round consolation play tomorrow.

CADDIES WILL HOLD TOURNEY
Annual Event to Take Place at Colwood Links Tomorrow Morning—Howard Defending

Robert Howard will start off in defence of his caddies' crown at the Royal Colwood Golf Club tomorrow morning against a field of thirty contenders. The tourney will be eighteen holes medal play under full handicap, and the winner will take possession of the handsome T. S. McPherson Cup for the next twelve months. The youngsters are all keyed up over the annual classic, and some fine golf is expected before the day is done.

The following women members have consented to score for the caddies: Miss Fitz-Gibbon, Dr. Liden, Mrs. Pocock, Mrs. Bennett, Mrs. Richardson, Mrs. Abell, Mrs. Macdonald, Mrs. G. W. Williams, Mrs. Crawford and Mrs. Crowe. The draw and starting times follow:

9:25—R. Howard, L. Derman and C. Oliver.
9:30—F. Mayfield, M. Ott and C. Haylock.
9:35—R. Spavin, R. Anderson and A. Bird.
9:40—T. Bird, B. Quinney and D. Barr.
9:45—E. Townsend, B. McNutt and G. Ash.
9:50—S. Haylock, F. Basanta and L. Baker.
9:55—A. MacDonald, I. Campbell and H. Haylock.
10:00—M. Smith, A. Anderson and A. Kellett.
10:05—R. Spavin, R. Woods and R. Weatherall.
10:10—F. Pordyce, W. Longworth and E. Wishart. H. Sayer.

L.I.F.A. WILL HOLD MEETING THURSDAY

A meeting of the Lower Island Football Association will be held at the Y.M.C.A. on Thursday night, at 8 o'clock. All clubs wishing to affiliate are asked to have a delegate present.

Pirates Jump Into Tie With Cubs by Winning Twin Bill

Blank Brooklyn in Both Ends of Double-Header to Create Deadlock for Second Berth—Senators Go Under as Yankees Beat Detroit

PITTSBURGH, Sept. 12 (AP).—Pittsburgh Pirates clambered back into a tie with Chicago Cubs for second place in the National League today, by beating Brooklyn Dodgers 1-0 and 2-0 in their final double-header. The Bucs finished seven and a half games behind the Cubs.

Heinie and Waite Hoyt, reeled off eighteen innings of runless pitching. Meine scored the only run of the opener in the ninth.

First game: R. H. E.
Brooklyn..... 0 0 1
Pittsburgh..... 1 0 0
Batteries—Thurston and Lopez; Meine and Grace.

Second Game: R. H. E.
Brooklyn..... 0 0 0
Pittsburgh..... 2 0 2
Batteries—Leonard and Lopez; Hoyt and Padden.

Cubs Blank Phils
CHICAGO, Sept. 12 (AP).—As a final tune-up for their "last ditch" series with New York Giants, which opens here tomorrow, Chicago Cubs edged out the Phillies 2-0 today and took the series, three games to one. Despite the victory, the Cubs fell into a tie for second place as Pittsburgh Pirates won two games.

Philadelphia..... 0 0 1
Chicago..... 2 0 0
Batteries—Holley, Pearce and Davis; Warneke and Hartnett.

AMERICAN LEAGUE
NEW YORK, Sept. 12 (CP).—George Uhle, who once pitched for the Tigers, kept most of the Detroit players under control to defeat the Yankees 4-3 today. It was Uhle's fourth straight victory for the Yanks. Gerald Walker made most of the trouble for Uhle. He drove in all three Tiger runs with a double and a triple. R. H. E.
Detroit..... 3 10 2
New York..... 4 3 0
Batteries—Bridges, Hoggatt, Auker and Hayworth; Uhle and Dickey.

Coffman Stars
BOSTON, Sept. 12 (AP).—The combination of Sammy West and Dick Coffman spelled a 4-1 defeat for Boston Red Sox today, by St. Louis Browns. Coffman limited the Sox to six hits, while West scored his team's first two tallies, batted in another, robbed Muller of a hit by a sensational leap, and one-handed catch, and made two hits, including a double. R. H. E.
St. Louis..... 4 10 1
Boston..... 3 7 0
Batteries—Coffman and Hemaley; Andrews, Fullerton and Ferrell.

Indians Beat Senators
WASHINGTON, Sept. 12 (AP).—Monte Pearson, the Indians' sensational rookie, today bested the veteran "General" Alvin Crowder in a neat pitching duel, and Cleveland set Washington Senators down, 3-1. The defeat shaved a game off from Washington's American League lead, since New York Yankees trimmed Detroit Tigers in New York.

Cleveland..... R. H. E.
Washington..... 1 4 2
Batteries—Pearson and Pytlak; Crowder and Sewell.

BEARS WIN OPENER
NEWARK, N.J., Sept. 12 (AP).—Coming from behind with a brilliant batting rally in the closing innings, Newark Bears overpowered Rochester Redwings, 6-3, here, today, in the opening game of the International League play-offs. About 4,500 attended. The teams played their last game here tomorrow afternoon, with Don Brennan and Tony Kaufmann as the opposing pitchers. The series is to Rochester on Thursday, with a night game. R. H. E.
Rochester..... 3 6 2

GOLF TOURNEY SET TODAY AT COLWOOD CLUB

Big Field to Tee Off in Interservice Golf Meet This Afternoon

Divot shiffters from the Rotary, Gyro and Kiwanis Clubs will tee off in the annual interservice tournament this afternoon at the Royal Colwood Golf Club for possession of the T. O. MacKay Cup. The silverware is held at present by the Rotary Club, and it will field a strong team in defence of the trophy. Play will get under way at 1:30 o'clock, with the field teeing off in three-somes.

The club piling up the most points will take possession of the cup. All matches will be eighteen holes and a point will be awarded for each victory. In the threesomes, which will include a representative from each club, a player can score two points by defeating both his opponents. Several other prizes will be up for competition, including the button, which is held by Bert Chailoner.

OWN STARTING TIMES
Members wishing to tee off before 1:30 o'clock can do so by communicating with the officials, while anyone wishing to play, and who is not mentioned in the draw, is asked to get in touch with the chairman of the Rotary Club.

THE DRAW
The draw, with the Rotary, Gyro and Kiwanis players named in that order, follows:
Goldwyn Terry, Art Christopher and Rowan MacKenzie.
George Hall, Alex. Strath and Vic King.
Bill Wilson, Bert Chailoner and Ross Johnson.
Jim Beatty, Louis Glazan and Al Dowell.
Bernie Ciceri, Dick Wilson and Darrel Spence.
Rowland Kingham, Angle McInnes and Rev. E. F. Church.
Jack Land, Herb Spence and Harry Curry.
Bill Pinfold, George McIntyre and Bill Crawford.
Bob Mayhew, Fred Hawes and Fred McGregor.
Bill Sheret, Ed. Revercomb and Harold Hinton.
Ed. Tomalin, Stan Moore and Ken Ferguson.
Frank Blashfield, Bill Hudson and George Hart.
Ed. Coates, Waldo Skillings and Tom Kelway.
Alex. Glenady, Robin Raymond and A. C. Stuckley.

FINANCE - COMMERCE - MARKETS

Stocks Slip as Bonds Advance At Wall Street

Market enthusiasts wanted a bit to day after an early bid for extension of Monday's rally. Prices exhibited considerable resistance to such selling as trickled through the list during the afternoon, but the market lacked the strength for further appreciation and final prices were generally lower. Sales totaled 2,240,396 shares.

Oils maintained an upward trend and so did some of the motor Chrysler succeeded in negotiating 50 for the first time in about four years, then lost more than a point net. General Motors touched its best price since 1931 and held part of the advance.

Other industrial leaders limited their losses largely to moderate proportions. U.S. Steel, Bethlehem, American Can, General Electric, Harvester and Westinghouse lost major fractions to about a point. Case and Allied Chemical yielded 2.

Reports of continued gains in freight car loadings brought renewed buying into secondary carrier bonds today, and advances of around 2 points were held by a number of the speculative favorites. Among the more active rail gainers were some lines of Baltimore & Ohio, Erie, Great Northern, Hudson & Manhattan, Illinois Central.

Bonds of Canada, Dutch East India, France and Switzerland advanced 1 to 3 1/2.

Under the stimulus of increased business the firm of Burleigh, Smith & Co., Ltd. and Burleigh & Partners, Ltd. have moved their offices from their former location in the Central Building to the new premises at 614 View Street. From here the business will be continued in stocks, bonds and investments, conducted on the same principles that have brought the firm the ever increasing confidence of the public since the halcyon days of 1929. For some years the concern has carried on a considerable investment business, with headquarters in Vancouver, and about a year ago, with the turn of financial interest to mining development, it was decided to enter that field.

The Victoria office is in charge of S. W. Walker and associated with him is A. C. Brand, late of the Royal Bank, who has had many years' experience in the investment field.

In addition to the stocks, bonds and investment business, Burleigh, Smith & Co., Ltd. do a considerable amount in underwriting of mining stock issues. The local office is served by wire to Vancouver.

That Body of Yours

By James W. Barton, M.D.

MAKING HAIR GROW

A couple of years ago Dr. B. N. Bengston, in the Journal of the American Medical Association, gave a list of a number of people on whose head he had been able to induce a new growth of hair.

Dr. Bengston was careful to say that these were not cases in which the hair had gradually disappeared, but cases due to illness or shock. Despite this statement, he was besieged by thousands of bald-headed people, and by hundreds of others anxious to secure his method and sell it to the world.

As a matter of fact, Dr. Bengston made no secret of his method. He simply stated that he used the extract from the tiny pituitary gland, no larger than a pea, which is situated in the floor of the skull.

Since the announcement, other investigators have been using this pituitary extract on ordinary cases of loss of hair without any real success.

In cases where the loss of hair came in patches and finally all the hair was lost, the use of the pituitary extract has been successful in some cases and a failure in others. That other glands may have something to do with the growth or loss of hair is quite possible, even probable, but until this has been definitely proven we'll have to use the methods now recommended by skin and hair specialists to preserve the hair and keep it healthy.

The comb and brush should be kept clean and the comb should be such as not to tear the hair or wound the scalp. A good comb has its teeth smooth and wide apart and their tips are blunt.

Hair brushes should have their bristles set wide apart. The brush should be stiff enough to allow one

How It Started

John A. Barton

"PITCH DARK"

The every-day expression, "Pitch dark" for complete darkness, to describe darkness unrelieved by any kind of light, is so constantly used that most of us give no thought to the uniqueness of the expression. Pitch is, of course, black, and to say that something is as black as pitch would not be an illogical use of words. But "pitch dark?"

In the origin the expression was "Dark as pitch," as it is known to readers of "Pilgrim's Progress," by John Bunyan. However, we find a recorded use in English literature antedating this seventeenth century classic in a work dating 1599 by the old author Marston, called "The Scourge of Villains."

A well-known singer was asked to a party. To his annoyance he was not asked to sing, and when the party was about to break up, very late, he said to his host, "Would you like me to sing 'Toot's' 'Good-bye' before I go?"

"No," replied the host, "don't bother to sing it old chap. Just say

should be stiff enough to allow one

B.C.'s BIGGEST MINE

Imagine, if you can, a gold-shot vein fifteen feet wide that is so enormous that it projects ten feet above the earth, making available, probably 1,000,000 tons of ore assaying from \$2.50 (poorest specimen) to as high as \$60.80 on average rock—WITHOUT MINING.

Such is the surface reserve of the gigantic fissure vein, extending for thousands of feet, on the property of the

Cariboo Mountain Gold Mines, Ltd.

The above is not an idle phantasy. It is an actual condition, attested to by official records dating from the discovery of the ledge in 1882.

In that year the Provincial Government selected the best and most experienced miners in Cariboo to search for new mining locations. The purpose of the expeditions sent throughout the country was to discover new placer workings and to report on lode showings as well.

Four men, including Alex Porter and Silas Johns, discovered this mammoth vein. The following year these two men, with three others, were again sent out to prospect in the same locality. Here is what they reported in reference to Cariboo Mountain:

"We prospected on the ledge for about two days. In three different places, but a sample assayed only \$2.50 to the ton. WE WERE CAREFUL TO CHOOSE THE POOREST PIECE FOR ASSAY."

"It shall be our endeavor to enlist capital, between now and Spring, to take hold and develop what, to us, seems THE RICHEST, LARGEST, AND BEST VEIN IN CARIBOO DISTRICT, IF NOT IN B.C."

The same year W. B. Schuyler, one of the most reputable mining men of his day, examined the vein and declared:

"I feel confident of its being a true fissure vein which when properly developed WILL PRODUCE MORE GOLD ANNUALLY THAN WAS EVER BEFORE PRODUCED IN CARIBOO'S PALMIEST DAYS."

Such were the reports of earlier days. Development was not undertaken then for the same reasons that retarded the working of any of the Cariboo veins, and which were commented on by Amos Bowman, John Bowman and other authorities—the lack of rail transportation to the heart of the district, Queen's. These impediments have been removed, rail and motor transportation have made development of Cariboo possible and profitable. Now here are modern reports on Cariboo Mountain:

John McLaughlin, M.E., one of Canada's best-known mining engineers, who is in charge of the development, declared in reporting on the property:

"I will say that, as it stands today, this property looks to be THE BEST PROSPECT I HAVE EVER SEEN. . . . I had the opportunity of seeing the underground workings of one of the large gold mines in Ontario last summer, and judging by outward appearances only—which is all I can do at this time—I think that the showing here compares favorably with what I saw there."

The above was written before assays were made. Mr. McLaughlin said he would be delighted if the surface showed a trace of gold. He sent two samples of characteristic surface rock to the Provincial Government for assay. Provincial Assayer D. E. Whittaker reported that they assayed

\$26.00 and \$60.80 to the Ton

R. H. Hewer, M.E., an experienced American engineer, said:

"If sufficient gold values exist (and appearances are extremely favorable), one of the largest gold mines in this country will be exposed."

This report was also made before the assays of surface rock were made.

Such are the assurances of experts both in pioneer days and the present.

Five New Veins Found

In addition to the great fissure vein reported upon, recent exploration work has encountered five additional ledges—four on the surface and one five-foot vein in the tunnel.

Work is being pushed ahead on the development of the mine, with every confidence that it will indeed prove to be the largest gold producer in B.C.

News of B.C. Mining

Placer Ground on Boundary Creek Is Drawing Attention

Possibilities of Gravels Long Overlooked by Mining Operators May Prove Attractive—Mining Company Gratified by Results of Systematic Development

GRAND FORKS, Sept. 12.—It is a rather strange fact that during all the years of active lode mining, until quite recently the placer possibilities of Boundary Creek were entirely overlooked, especially as Government records were to be obtained which showed that large sums were extracted there during the very early days, in the sixties, by the most primitive methods.

It was also known that only such portions of the creek which could be easily sluiced had been worked and that in only very shallow ground had bedrock been reached by the pioneer miners, and then only in a very few isolated spots. Lode mining being the popular thing and capital the time of the last mining boom being fairly easily obtained, the above-mentioned facts scarcely attracted any attention. Recently, however, the demand for gold has altered the entire situation and the probability appears to be that those who have made locations on the creek and who are now engaged in active mining, or about to do so, will reap an ample reward.

OPERATING LEASE
In June, last year the Boundary Creek Mining Company, Limited, Dr. B. E. Lang, president, obtained a half-mile placer lease on ground about two miles from the mouth of the creek, where it empties into the Kettle River at the international boundary line. Two prospecting shafts were sunk with good results and preparations made for more active work this season. Since last May, five men have been employed with E. H. Barclay as foreman, a small drag-line scraper erected and extensive work carried on adjoining the main highway. Virgin bedrock was reached at a depth of twenty-two feet, and since that was struck operations have been confined to it.

FIND COARSE GOLD
Boundary Creek is at present all held in leases, right up to the Falls, and the other leaseholders are preparing for active work next year by prospecting their ground. It was freely stated in the nineties that the early placer-men never got good colors above the surface, but this cannot have been the case, as at present very coarse gold is being taken out of the placer. The prospecting gravel close to the Falls.

Big Operation Planned

GRAND interest in mining circles is being shown in the future of the Emory Creek nickel deposits, the outcropping of which is pictured above. Large scale operations are under way, and it is reported that they are backed by Edsel Ford and E. L. Cord, automobile manufacturers. The deposits are near the headwaters of Emory Creek, which empties into the Fraser near Choate.

BIG ORE BODY IN STERLING

After Cutting Seventeen Feet of Highly Mineralized Vein Ore in Face

The vein reported cut on the Sterling Creek mine, near Hedley, one of the Canada Lode Gold Mines, Ltd., group, has proved to be a surprise, according to later advice received by wire from the property.

After cutting seventeen feet of the ore body, the face was still in the vein, and most satisfactory values had been reported from initial assays.

The big vein was encountered at seventy-one feet from the portal, at a depth of 100 feet, and was heavily mineralized.

VEIN STRUCTURE

The first five feet of the vein carried fairly heavy mineralization in the form of iron pyrites; the next five feet showed increased pyrites with small bands of arsenopyrites. A cut sample from the first ten feet gave 38 ounces in gold to the ton. Further assays are being made.

The next four feet showed about the same amount of arsenopyrites, but an increase in iron pyrites and considerable quartz. The next twenty inches showed a heavy increase in arsenopyrites, while the next two feet to the face again showed an increase in iron pyrites, and this condition was continuing at the face, eighty-eight feet from the portal, when the information was telegraphed to the head office here.

The rock is quite hard and the tunnel is reported to be showing considerable water.

Richstrake, a company that has operations under way in California, is undertaking extensive development in the Bridge River area, where cross-cutting is being carried on to cut ore bodies.

Claims Optioned On Herbert Arm

The Mary McQuillon group of claims on Herbert Arm, West Coast of Vancouver Island, are reported to be under option to Waverly-Tangier Mines Ltd.

The option includes payment of \$15,000 for 75 per cent interest, payments spread over two years, and well planned development.

Mining engineers are making a careful study of the property for the company, and upon their report will depend whether the options are taken up.

MERIDIAN SHOWS GOOD SULPHIDES

Lardean Property Indicates That Gold Values Will Improve With Depth

Operations at the Meridian Mining Company's property in the Lardean being carried on under the direction of A. O. Langley, consulting engineer, with a view to determining the scale upon which milling operations will be carried on, are yielding highly interesting results, according to recent reports from the property.

Of significance from the geological standpoint is that the sulphides are getting stronger as the depth is gained on the different ore showings. As the gold values are found in the sulphides, the indication is that the enrichment will be greater at depth.

The expectation of the management is that large overbodies of milling grade will be proven, warranting a large-scale milling operation.

Seattle capitalists are said to be interested in the work being carried on in the famous old Rock Creek placers in an effort to test the deep ground of a mill as well as a placer for the mine. Mining operations plan extension of a low level tunnel on an eight-foot vein carrying gold values.

Hixon Creek Development

This Gives an Idea of the Portal of the Broughton Mines at Hixon Creek, Where Geological Formations and Known Ore Bodies Presage Large Tonnage Development.

Find More Veins On Hurley Creek

Progress is reported on the Grull-Wilkinson Gold Mines, Ltd., property at the junction of Cadwallader and Hurley Creeks, in the Bridge River area.

Col. H. H. Yull, M.E., has been appointed consulting geologist. The main tunnel is being rapidly advanced, and thirty men are being employed under the management of E. J. Conway, M.E., as general superintendent.

Exploration work has resulted in uncovering four new veins in addition to the known ore bodies in the workings. A fine camp has been erected for the accommodation of the crew, while an efficient power plant has been installed.

RAINBOW HAS TUNGSTEN ORE

Good Values Are Shown by Development of Property Near Midway

GRAND FORKS, Sept. 12.—One of the most attractive lode gold locations is the Rainbow group of mineral claims, about three miles northwest of Midway, owned by Messrs. D. J. Murray, of Beaverdel; W. D. Murray, L. E. Salter and Spencer Bennerman, of Midway. There are seven claims in the group, which is well worth inspection, though development has not yet been carried on on an extensive scale.

The first claim located, the Rainbow, was recorded in June, 1930. Three assessments have been done on this property and the work has shown a reef approximately twelve feet wide stripped for over 300 feet and which is well mineralized with galena, sphalerite and iron pyrites.

TUNGSTEN ORE
Assays run from four dollars to eight dollars in gold (which is evidently associated with the sphalerite) and from twelve ounces to fourteen ounces in silver. Similar ore is found on the adjoining claim, Rainbow No. 2, but on the Rainbow No. 3, which lies to the north, a shaft sunk a little over twenty feet, is almost entirely in tungsten ore, part of which also assays well in gold.

The Lakeview, Broadview and Riverview, other claims in the group, have surface outcrops of gold quartz.

HIGH ASSAYS

The most interesting is found on the Riverview, where open cuts and stripping have shown up a vein which samples as high as twenty-two dollars in gold, while also carrying good silver values.

The Spokane, the last location in the group of seven claims, is seen in the extension of the Rainbow reef, which samples as high as forty-three per cent chrome. The property is easily reached by wagon road from Midway, mining timber is plentiful and water for all mining purposes near at hand. Work is still being carried on, the old reef leading the owners to believe that the locations made fully warrant development.

FUTURE PROMISING

On the northeast branch of Inram Creek also some promising quartz veins have recently been located, and though no great mining activity exists in the older Boundary camps, other than the reopening of the Jewel camp, the situation is such as to warrant a belief that this district will see far greater mining activity in the near future.

The power unit at the Home Gold Mining Co., Ltd., property in the Coquihalla River district has been increased to make possible the operation of a mill as well as a placer for the mine. Mining operations plan extension of a low level tunnel on an eight-foot vein carrying gold values.

NATIVE SON IS IN SERPENTINE

Bridge River Property Has Accomplished Substantial Development

World has been received at the head office of Native Son Mines, Limited, from John Warwick, superintendent, including Sullivan tunnel now being driven in now in 350 feet from the portal, and that he had cut through the diorite formation, and is now in the serpentine, with small stringers of good-looking quartz coming in.

This tunnel has about 175 feet yet to go before cutting the large vein exposed on the surface. When this is completed, it will give approximately 300 feet of depth on the vein.

WINTER CAMP

The company is also clearing a site for a winter camp, and have about 50,000 feet of lumber now on the property, as well as a full mining equipment, including Sullivan compressor, Denver drifter, steel sharpening machine, oil furnace, caterpillar, mawmill, etc.

At present there are about eighteen men employed, working two shifts of eight hours each.

When in the present development work is completed, the directors propose to have the property examined and sampled by a competent mining engineer, with the object of laying out a more comprehensive mining programme.

The Native Son now ranks in fifth place as to operating companies in the Bridge River district, both as to number of men employed and the amount of development work completed during the present summer.

HOLDS MINING SHARES

A statement by Nelson Spencer, president of the Home Oil, says that since shareholders, on May 20, 1932, authorized directors to invest in mining projects, the company has acquired 1,500 shares in Pioneer Gold, 2,000 shares in Bralorne, 250,000 shares in P. E. Gold, 2,000 shares in Plutus Ltd., 5,000 shares in Dan Tucker Ltd., 66,666 shares in Placer Engineers Ltd., 4,000 shares in Reno Gold.

Other investments consist of \$75,000 in Dominion of Canada bonds and \$30,000 cash in savings accounts.

What Today Means

"VIRGO"
If September 13 is your birthday, the best hours for you on this date are from 10 to 11 a.m., from 3:45 to 5 p.m., and from 7 to 7:30 p.m.

The danger periods are from 8:30 to 9:20 a.m., from 12:30 to 1:45 p.m., and from 5 to 6:35 p.m.

It will be difficult for you to work steadily or long at anything on this date. Influences operating today will tend to promote activity of a jerky nature; whatever is accomplished will be done in spurts. Much work of a manual or mechanical nature done today will have to be repeated. Near perfection will not be easily attained.

The child born on this September 13 will have no hesitation about speaking his thoughts; his attitude towards his elders, including his parents, will be no different than towards those of his own age. The child will be happy and care-free, and will possess a mind that works rapidly. Will probably do especially well in mathematics and in general science at school; will enjoy detailed studies.

If September 13 is the date of your birth, you are more than likely the type of person who will apparently go through life without ever showing a trace of worry. Life, generally, will treat you kindly, but like all others you will buck up against a stone wall now and then. Your life will be generally successful because of the fact that your aims and aspirations will always be of a worthy and high order. Your greatest difficulty lies in the fact

Half-Day Bargains For This Morning

Rain-coats

Smart, Practical for Campus or Street Wear

\$3.75

A Raincoat for Fall and Winter weather, on this Coast is a premier necessity for the college girl. And in this special offering you have a real bargain.

Rain and Wind-Resisting Coats of rubber-lined gaberdine, made in double-breasted, belted style, with belt and slash pockets. Sand shade. Sizes 14 to 44. On display in the Mantle Department, 1st Floor.

The "Spiral" Bone Corset

Proves Its Merits

Our first shipment of these wonderful new Corsets was sold out immediately, and many customers have been waiting weeks for this shipment to arrive.

For this Back-Laced Corset will bring real comfort into your life! Made of heavy pink coutil, reinforced across the abdomen, with graduated front steel and heavy boning—it gives all the support you need without unduly restricting movement. The "comfort" feature is the spiral bones that bend with the body but do not break. Medium bust style. **\$2.50**

—Corset, 1st Floor

COMFORTERS

Special Values for Half-Day Shoppers

Cotton-Filled Comforters in floral chintz covers, with plain-color panels and reversible back. Size 60 x 70 inches. Each **\$2.95**

Wool-Filled Comforters, with floral saten covers and saten panels. Size 60 x 70 inches. Each **\$4.95**

The same with silk panels and in size 66 x 70 inches. Each **\$5.95**

Down-Filled Comforters, covered in floral cambrics with saten panels. Size 60 x 70 inches. Each **\$6.95**

Down-Filled Comforters in downproof cambric covers with contrasting panels of rayon silks. Size 66 x 70 inches. Each **\$10.95**

—Staples, Main Floor

Wednesday Morning Bargains for MEN

Broadcloth Shirts, with collar attached. Plain shades or striped patterns. All sizes. **\$1.00**

Men's Windbreakers, in plain colors, with collar and two pockets, knitted waistband. All sizes. **\$1.95**

Watson's Cream Elastic Rib Combinations, with buttoned front, short sleeves and ankle length. A suit **85c**

Broadcloth Shorts, with fancy stripes and plain colors. All sizes. Regular 65c values for **50c**

Men's White Athletic Vests, elastic rib. All sizes. Each **35c** and **50c**

Fine Dress Socks, in fancy patterns, and in fine rib, all wool. In plain colors. 2 Pairs **75c**

—Men's Furnishings, Main Floor

DAVID SPENCER LIMITED

that you are slow to apprehend fully and convincingly. You are not the type of person who unwillingly overpower others with your strength and personality; all you meet you feel immediately at ease, for you treat all at your equal, whether they be it or not.

He: "Why are you always harping on that husband you had before me?"

She: "Would you rather I spoke of the one who will follow you?"

Born on September 13, you have a mind of your own and you are quick to take command of any situation. In working out your problems, you do not stay long in a blind alley when you are puzzled. If one scheme seems not to work, you believe another will, and so you keep on trying. You are adroit in meeting and handling people; never at a loss for words, you speak the right ones at the right time, force-
